

Introduction to Petrochemicals Course

Consultant / Trainer
Cherng Jih (CJ) Ho

The **Petrogenium**. Introduction to Petrochemicals Course will support you with the regional and global petrochemical industry overview, the drivers, value chains and evolving trends. These insights will allow participants to make better business decisions to improve their company's profitability with a lot of practical hands-on information. No high-level consultancy speak, but the real thing!

This course can be given face-to-face or remotely. The presentations are interactive, supported with slides that also serve as a dedicated course manual (PDF file). The course includes interactive discussions and participant topics (on demand, aided by short videos, exercises and Q&A sessions). Learning assessment is through a written assessment (if required).

Participants

This **Petrogenium**. course can be tailored for awareness or inexperienced staff, for intermediate and for experienced personnel. Furthermore, the course can be customized for a specific plant or unit. The option for post-course consultancy/help-desk support is also available.

Participants may include: Petrochemical Sales, Marketing and Business Development Managers, Petrochemical Distributors, Procurement Managers, Petrochemical Plant Managers, Production Managers, Finance Manager.
